Tracking Tools, Advertising, and Opt-Out

The Services use cookies and similar technologies such as pixel tags, web beacons, clear GIFs and JavaScript (collectively, “Cookies”) to enable our servers to recognize your web browser, tell us how and when you visit and use our Services, analyze trends, learn about our user base and operate and improve our Services. Cookies are small pieces of data— usually text files – placed on your computer, tablet, phone or similar device when you use that device to access our Services. We may also supplement the information we collect from you with information received from third parties, including third parties that have placed their own Cookies on your device(s).

Please note that because of our use of Cookies, the Services do not support “Do Not Track” requests sent from a browser at this time.

We use the following types of Cookies:

- Essential Cookies. Essential Cookies are required for providing you with features or services that you have requested. For example, certain Cookies enable you to log into secure areas of our Services. Disabling these Cookies may make certain features and services unavailable.
- Functional Cookies. Functional Cookies are used to record your choices and settings regarding our Services, maintain your preferences over time and recognize you when you return to our Services. These Cookies help us to personalize our content for you, greet you by name and remember your preferences (for example, your choice of language or region).
- Performance/Analytical Cookies. Performance/Analytical Cookies allow us to understand how visitors use our Services. They do this by collecting information about the number of visitors to the Services, what pages visitors view on our Services and how long visitors are viewing pages on the Services. Performance/Analytical Cookies also help us measure the performance of our advertising campaigns

in order to help us improve our campaigns and the Services' content for those who engage with our advertising. For example, Google LLC ("Google") uses cookies in connection with its Google Analytics services. Google's ability to use and disclose information collected by Google Analytics about your visits to the Services is subject to the Google Analytics Terms of Use and the Google Privacy Policy. You have the option to opt-out of Google's use of Cookies by visiting the Google advertising opt-out page at www.google.com/privacy_ads.html or the Google Analytics Opt-out Browser Add-on at <https://tools.google.com/dlpage/gaoptout/>.

You can decide whether or not to accept Cookies through your internet browser's settings. Most browsers have an option for turning off the Cookie feature, which will prevent your browser from accepting new Cookies, as well as (depending on the sophistication of your browser software) allow you to decide on acceptance of each new Cookie in a variety of ways. You can also delete all Cookies that are already on your device. If you do this, however, you may have to manually adjust some preferences every time you visit our website and some of the Services and functionalities may not work.

Targeted Advertising

We may serve advertisements, and also allow third-party ad networks, including third-party ad servers, ad agencies, ad technology vendors and research firms, to serve advertisements through the Services. These advertisements may be targeted to users who fit certain general profile categories or display certain preferences or behaviors ("Interest-Based Ads"). Information for Interest-Based Ads (including Personal Data) may be provided to us by you, or derived from the usage patterns of particular users on the Services and/or services of third parties. Such information may be gathered through tracking users' activities across time and unaffiliated properties, including when you leave the Services. To accomplish this, we or our service providers may deliver Cookies, including a file (known as a "web beacon") from an ad network to you through the Services. Web beacons allow ad networks to provide anonymized, aggregated auditing, research and reporting for us and for advertisers. Web beacons also enable ad networks to serve targeted advertisements to you when you visit other websites. Web beacons allow ad networks to view, edit or set their own Cookies on your browser, just as if you had requested a web page from their site.

Data Security

We seek to protect your Personal Data from unauthorized access, use and disclosure using appropriate physical, technical, organizational and administrative security measures based on the type of Personal Data and how we are processing that data. You should also help protect your data by appropriately selecting and protecting your password and/or other sign-on mechanism; limiting access to your computer or device and browser; and signing off after you have finished accessing your account. Although we work to protect the security of your account and other data that we hold in our records, please be aware that no method of transmitting data over the internet or storing data is completely secure.

Data Retention

We retain Personal Data about you for as long as necessary to provide you with our Services or to perform our business or commercial purposes for collecting your Personal Data. When establishing a retention period for specific categories of data, we consider who we collected the data from, our need for the Personal Data, why we collected the Personal Data, and the sensitivity of the Personal Data. In some cases we retain Personal Data for longer, if doing so is necessary to comply with our legal obligations, resolve

disputes or collect fees owed, or is otherwise permitted or required by applicable law, rule or regulation. We may further retain information in an anonymous or aggregated form where that information would not identify you personally.

For example:

- We retain your profile information and credentials for as long as you have an account with us.
- We retain your device/IP data for as long as we need it to ensure that our systems are working appropriately, effectively and efficiently.

As noted in the Terms of Use, we do not knowingly collect or solicit Personal Data from children under 18 years of age; if you are a child under the age of 18, please do not attempt to register for or otherwise use the Services or send us any Personal Data. If we learn we have collected Personal Data from a child under 18 years of age, we will delete that information as quickly as possible. If you believe that a child under 18 years of age may have provided Personal Data to us, please contact us at customersupport@auzo.com.

Your browser may offer you a "Do Not Track" option, which allows you to signal to operators of websites and web applications and services that you do not wish such operators to track certain of your online activities over time and across different websites. Our Services do not support Do Not Track requests at this time. To find out more about "Do Not Track," you can visit www.allaboutdnt.com.

If you are a resident of Nevada, you have the right to opt-out of the sale of certain Personal Data to third parties. Please note that we do not currently sell your Personal Data as sales are defined in Nevada Revised Statutes Chapter 603A.

Each request that meets both of these criteria will be considered a "Valid Request." We may not respond to requests that do not meet these criteria. We will only use Personal Data provided in a Valid Request to verify your identity and complete your request. You do not need an account to submit a Valid Request.

We will work to respond to your Valid Request within the time period required by applicable privacy laws. We will not charge you a fee for making a Valid Request unless your Valid Request(s) is excessive, repetitive or manifestly unfounded. If we determine that your Valid Request warrants a fee, we will notify you of the fee and explain that decision before completing your request.
